-UPDATE-

Lowenbach Phase II – Catoctin Circle, NE *As of May 17, 2010*

Town Council Awards Construction Contract

Tessa Construction and Tech Company, LLC has been awarded the construction contract and will start work in late June, weather permitting.

Relocation of the overhead utility poles has begun. After the new poles have been set, each utility company will move its lines to the new poles, starting with Dominion VA Power. This work should last until mid-July and should cause minimal disruption of traffic.

A public meeting to give more details on how this construction will affect the residents of both Lowenbach and greater Leesburg, will be held in early June. Once the meeting has been scheduled, the Town will notify the community. Please watch for more information.

This project consists of new curb and gutter on Catoctin Circle and adjacent portions of Blue Ridge Avenue, brick sidewalk on the west side of Catoctin, traffic calming measures, a new storm drainage system, and upgrades to the sanitary sewer and water system.

Project Status:

Construction contract awarded by Town Council. Overhead utility relocation continues.

To receive email notifications about this project, please send an email to csteyer@leesburgva.gov with "Lowenbach" in the subject line.

If you have any questions or comments, please contact: Anne Geiger, Project Manager, 703-771-2742, ageiger@leesburgva.gov or call the Department of Capital Projects Management at 703-737-2302.

Every effort will be made to minimize inconveniences as we construct the road improvements.
